FUND STATUS

FY 2014/2015

As of December 31

Enhance the quality of life in the City by delivering public services in a knowledgeable, responsive and financially responsible manner.

Explanation of Tables and Charts

Monthly Report Note

While the month of December 2014 has been closed to new purchases, there are still some accounting entries being processed that relate to year end accruals from the previous Fiscal Year (FY2013/14). These entries can occur throughout the external audit process which usually concludes around early spring. Also, due to that audit process, the remaining budget associated with multi-year projects has not been allocated in the new fiscal year. As such, Enterprise and Capital Funds may have additional budget that is not represented on their tables and graphs.

Budget Status

The Budget Status table contains actual numbers for the current year. The "Current Approved Budget" is the original budget plus any budget revisions / amendments that have occurred during the fiscal year. Actual year to date expenses include expenses that have occurred during the current month. Those numbers are also shown as a percentage of the current approved budget. The "Total Expenses to Date" reflects actual expenses at the close of the month plus the percentage of the budget that has been spent. The "Target" percentage assumes the budget is spent in equal monthly allotments. For budget monitoring purposes, the percentage spent to date should be less than the target amount.

Percentage of Budget Spent

This graph compares current spending patterns with that of previous years. The "Baseline" plot assumes spending will occur in equal amounts each month (1/12th or 8.3%). Actual spending patterns are presented for the prior two fiscal years and the current year. Finally, a projection is made for the remaining months of the current year based on the average spent during the same period in the previous two years. As a budget monitoring tool, in most instances this graph should reflect consistent spending patterns and ideally the "Projected" line should be below both prior year actuals and the "Baseline".

Actual Expenses by Month

The purpose of this graph is to also compare current spending patterns with previous years. Trends in monthly spending patterns will be evident.

Budget to Actual Comparison

The purpose of this chart is to compare spending in the current year against the approved budget. The "1/12 Budget" line is a presentation of the current approved budget divided into twelve equal allotments. The "Budget/Spending Pattern" uses prior year spending patterns to allocate the current approved budget into twelve allotments. Actual spending is also plotted. The last item on the chart is "Accumulated Savings"; this is the difference between actual spending and the budget allotment using **prior** spending patterns. As a budget monitoring tool, this line should be above \$0. (Please note that the budget allotment does use prior spending patterns. As a result, there may be some Departments where this line is below \$0, even though current year expenditures are within budget.)

General Fund Revenues Narrative As of December 31, 2014

Operating Revenues Overview

The City of Orlando's Operating Revenue budget totals \$330M for Fiscal Year 2014/15. Through December, the City brought in \$135.2M which represents 40.96% of the \$330M Revised Budget.

Property Taxes

The Property Tax revenue budget rose between Fiscal Years 2013/14 and 2014/15 to a total of \$128.2M due to rising housing market values and an increase in the City's millage rate. Property Tax revenue collection began in November and approximately 69.79% of revenue has been received at the end of December. The monthly revenue amount will increase as both businesses and citizens continue to make their property tax payments.

Charges for Services

Charges for Services predominantly include Cost Allocation Plan revenues as well as Public Safety Fees. Approximately 25.32% of these revenues have been collected so far. This is a slight increase in the percent of budget collected in comparison to the 24.65% that was received in December of 2013/14.

Fines and Forfeitures

\$403K of the \$2.3 budget has been collected after the third month of the Fiscal Year. The majority of the budget (\$1.75M) is from Red Light Camera citations. Legislation requires a portion of this revenue to be diverted to the State. However, the legislation also allows the City to install devices on State roads, which see higher traffic volumes. The Orange County Clerk of Courts is responsible for sending the City all funds due once the State portion has been deducted.

Franchise Fees

The amount collected this month was roughly \$7.7M which is approximately 25.34% of the annual budget. Although the percent collected is higher than the monthly benchmark of 25.00%, it is lower than the 26.21% that was received after December 2013/14.

Intergovernmental Revenue

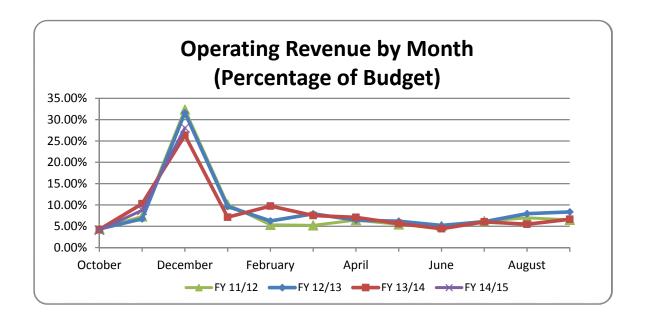

Intergovernmental Revenue includes dividends paid out monthly to the City from OUC, Grant Revenues and State Revenue Sharing. The \$16M collected represents 24.38% of the \$65.8M revenue budget.

Licenses and Permits

Local Business Taxes are at 15.40% of budget and a total of 46.13% of Permits Fees have been collected, totaling \$2.5M in revenue.

Sales and Use Taxes

Through December, 17.51% of the \$57.1M budget has been collected for this revenue group. The City's portion of State Sales Tax totals \$8.8M for November which is 23.59% of the total budget. In FY2013/14 at this time the city had collected 23.26% of the total budget.
